

NGRAIN Broadens Access to 3D Equipment Simulation Software and Services to Companies Worldwide

Extensive reseller network brings training and maintenance support solutions to new markets

ORLANDO, FL, December 2, 2008 (I/ITSEC) — [NGRAIN](#), a leading provider of interactive 3D equipment simulations supporting training programs and maintenance support systems, today announced it has significantly expanded its reach worldwide. Building on its existing global reseller network, NGRAIN has established solution reseller agreements with 10 additional strategic partners, including:

- [USB](#) (Munich, Germany)
- [Tess-Com Italia](#) (Milan, Italy)
- [Medicon, Ltd.](#) (Athens, Greece)
- [InfoTron A.S.](#) (Istanbul, Turkey; Dubai, UAE)
- [KCEI Ltd.](#) (Seoul, South Korea)
- [RealViz Inc.](#) (Tokyo, Japan)
- [Kalibre Group LLP](#) (Singapore)
- [CaidMark Sdn. Bhd](#) (Kuala Lumpur, Malaysia)
- [Yentrek](#) (Chennai, Tamil Nadu India)
- [Allos Consulting \(PTY\) Ltd.](#) (Pretoria, South Africa)

“NGRAIN is committed to delivering the tools our customers need to quickly and effectively create training solutions that support mission critical programs,” said Keith Pollock, Director of Global Reseller Channel and Strategic Partnerships, NGRAIN. “Expanding our network of best-in-class resellers ensures that equipment manufacturers, systems integrators, and military organizations have access to cutting edge solutions that help them succeed globally.”

The Global Reseller Network provides customers with access to NGRAIN's award-winning technology solutions, including:

- [Virtual Task Trainer & Job Aid](#) – Customized 3D equipment simulation applications designed to train personnel anytime, anywhere on specific installation, maintenance, and operations tasks.
- [Producer](#) – Commercial-off-the-shelf software that enables Microsoft® Office users with no programming to create 3D equipment simulation animations and advanced tasks.

- [Virtual Damage Assessment](#) – Customized 3D equipment simulation application that provides a streamlined method to capture, record, and track equipment damage by drawing directly onto a 3D simulation.
- [Viewer](#) – Commercial-off-the-shelf software that enables real-time interaction with 3D equipment simulations, including part removal and replacement tasks.

“A faster, more efficient way of transferring knowledge to the operators and maintainers of vital equipment accelerates training, reduces equipment downtime, and improves job performance,” said Gabriel Batstone, Vice President of Sales and Business Development, NGRAIN. “Our resellers bring new and added value to their customers, offering interactive 3D equipment simulation solutions enabling them to more effectively capture, comprehend and communicate information.”

Organizations worldwide use NGRAIN to increase training throughput, streamline operational efficiency, and maximize equipment uptime. To inquire about NGRAIN’s Global Reseller Network, contact resellers@ngrain.com.

About NGRAIN

Sixty-five cents of every dollar spent on a piece of equipment is spent on sustainment. NGRAIN enables organizations to dramatically reduce these costs by maximizing the effectiveness of equipment training programs and maintenance support systems with interactive 3D equipment simulations. With NGRAIN’s breakthrough 3D simulation capabilities, customers have been able to accelerate the communication of knowledge by 60%, and improve operational efficiency by 30%.

NGRAIN makes 3D attainable. With NGRAIN, Subject Matter Experts can easily produce, integrate, and distribute 3D simulations, delivering unparalleled real-time 3D interactivity over the web to everyday desktop, laptop, and tablet computers. NGRAIN makes it possible for organizations to transform how they share information, making complex ideas simpler and more accessible to all.

NGRAIN delivers solutions to a host of industries worldwide, including Aerospace & Defense, Energy, and Technology. With its proven, award-winning solutions, NGRAIN has proved to be one of the most trusted names in the realm of 3D technology. NGRAIN’s customer base includes all branches of the United States and Canadian militaries, Lockheed Martin, Standard Aero, CAE and other industry leaders.
